

PLAN JUBILEE AT SO. AMBOY

Mechanicsville Hose Company
Expects to Have Monster
Crowd at Celebration

SOUTH AMBOY, July 20—Coney Island will have nothing on Stevensdale tomorrow night and every night next week. The members of the Mechanicsville Hose Company, headed by Frederick Kurowski, chairman, will stage a jubilee in honor of their thirty years existence as a hose company. Everything that master minds have conceived in the way of attractions will be placed on the Stevensdale grounds, which are situated on Higgway avenue, Fourth street and at the mouth of Stevens avenue.

Musical Mack, one of the highest paid entertainers on the legitimate stage today, is scheduled to perform in the open, during four of the nights activities. Other events will be among the attractions given to the public.

The main feature of the event will be a popularity contest. The most popular person in the city can either be a man, woman or child. The votes will be given to persons winning prizes during the nights of the jubilee. For every prize won, the committee will give one hundred votes. It is expected that unusual interest will be manifested by the people of the city over this particular attraction. A pea guessing will also be carried on in conjunction with the affair.

Dancing will also be an attraction during the week of merriment. A good orchestra has been hired for dancing. Twenty booths with hundreds of dollars worth of goodies will be manned by the members of the fire company, assisted by their many friends. Dolls, clocks, roasters, hams, fruits, cakes, pies and a country store. Hundreds of electric colored lights will be strung about the grounds to add to the appearance

of the scene. The fire laddies have been working hard for the past several weeks getting their arrangements and plan shaped into working order. The Ladies Auxiliary to the Hose Company in no small way have helped in the arrangements and will

also continue with part of the work for the entire week. Many of the dainty booths will be in charge of these ladies. The committee recently completed the purchase of many hundreds of dollars worth of material they will use during the jubilee. Then, too, a

large number of store keepers and friends have contributed generously to the firemen. The committee consists of Frederick Kurowski, chairman, Richard Neitopp, Jr., Richard Neitopp, Sr., Oliver Lochart, George Hart. These men are assisted by the entire membership of the Ladies Auxiliary.
